INDEPENDENT AUDITORS' REPORT

Board of Directors
Whispering Palms Community Services District
Encinitas, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the governmental fund, the proprietary fund, and the fiduciary funds of the Whispering Palms Community Services District, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the governmental fund, the proprietary fund, and the fiduciary funds of the Whispering Palms Community Services District as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America as well as the accounting systems prescribed by the California State Controller's Office and California regulations governing Special Districts.

Emphasis of Matters

As discussed in Note 1k to the basic financial statements, the District adopted Governmental Accounting Standards Board's Statement No. 68, "*Accounting and Financial Reporting for Pensions, an amendment of GASB Statement No. 27*", and Statement No. 71, "*Pension Transition for Contributions Made Subsequent to the Measurement Date, an Amendment of GASB Statement No. 68*". Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the budgetary comparison schedule – Governmental Fund, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis, and budgetary comparison schedule – governmental fund because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Whispering Palms Community Services District

Management's Discussion and Analysis

Year Ended June 30, 2015

This section of the Whispering Palms Community Services District's (District) annual financial report presents an analysis of the District's financial performance during the fiscal year ended June 30, 2015. This information is presented in conjunction with the audited basic financial statements, which follows this section.

FINANCIAL HIGHLIGHTS FOR FISCAL YEAR 2014-2015

- The assets of the District exceeded liabilities at the close of the 2014-2015 fiscal year by \$7,835,944 (net position). Of this amount, \$2,387,785 (unrestricted net position) may be used to meet ongoing obligations to citizens and creditors, and \$5,448,159 is invested in capital assets.
- Total revenues of the District increased at the close of the 2014-2015 fiscal year by \$101,988.
- Total expenses of the District increased at the close of the 2014-2015 fiscal year by \$4,888.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: government-wide financial statements, fund financial statements, and notes to the financial statements. This report also includes additional required supplementary information in addition to the basic financial statements.

REQUIRED FINANCIAL STATEMENTS

Government-Wide Financial Statements are designed to provide readers with a broad overview of District finances, in a manner similar to a private-sector business, and includes the Governmental Activities (the Landscape Maintenance District) and the Business-type Activities (the Sewer Improvement District).

The Statement of Net Position presents information on all of the District's assets and liabilities and provides information about the nature and amounts of investments in resources (Assets) and the obligations to District creditors (Liabilities). Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g. uncollected taxes).

Both of these government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a portion of their costs through user fees and charges (business-type activities). The governmental activities of the District are roadside landscape maintenance services. The business-type activities of the District are sewer services.

Whispering Palms Community Services District
Management's Discussion and Analysis (Continued)

Year Ended June 30, 2015

Fund Financial Statements are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and to demonstrate finance-related legal compliance. All of the District's funds can be grouped into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions.

The District uses a special revenue fund to account for its Landscape and Lighting Improvement District No. 1 (LLID), which provides street right-of-way landscape maintenance services. The District contracts with a landscaping contractor to maintain the Whispering Palms entry fountain and landscape maintenance for the street right-of-way for the Whispering Palms development along Via De La Valle and Cancha De Golf.

Proprietary Funds are used to account for the District's sewer service. Sewer service charges are used to fund the ongoing operations of the District including administrative, operations, treatment, collections, and acquisitions of capital assets. The proprietary fund financial statements include the statement of net position, statement of revenues, expenses and changes in net position, and statement of cash flows. These statements are accounted for using the full accrual basis of accounting similar to commercial enterprises.

Sewer service is provided throughout the service area of the District. The District serves the Whispering Palms residential development, as well as areas to the east such as the Del Mar Country Club Estates, Rancho Santa Fe Farms, Del Rayo Estates, Rancho Valencia, and San Diegueno Hills. Sewage is treated at the Whispering Palms Wastewater Reclamation Facility, which has a capacity of 400,000 gallons per day. The basic unit of charge used to calculate sewer service and connection fees is called an Equivalent Dwelling Unit (EDU), which equates to an estimated 230 gallons per day of wastewater flow. All single family homes are charged 1 EDU as their sewer service charge. Commercial properties are charged based upon their calculated EDU's. The charge per EDU for the year ended June 30, 2015 was \$275. Sewer service charges are used to fund the ongoing operations of the District including administration, treatment plant and collections system operations, and replacement of equipment as needed.

Fiduciary Funds are used to account for resources held for the benefit of parties outside the government. The statement of fiduciary net position is included in the District's basic financial statements and is reported using the accrual basis of accounting.

Assessment District 93-1 was formed and funded in 1996 for the purpose of constructing a sewer collection system for the community of San Diegueno Hills and surrounding areas. The assessment district was created under the Municipal Improvement Act of 1913 and the Improvement Bond Act of 1915. A total of \$4.1 million in bonds were issued, backed by an assessment on 135 parcels.

Year Ended June 30, 2015

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information which can be found on the final pages of this report.

Governmental Fund Budgetary Highlights

The final expenditures at year-end were \$296,777 less than the final budget. The budget to actual variance of inflows was primarily due to increasing property values, while the budget to actual variance of outflows was due to the postponement of the landscape renovation of the median and right-of-way areas.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

A summary of the District's Statement of Net Position in comparison to the prior year is presented below.

Condensed Statement of Net Position				
Fiscal Years				
June 30, 2014 and 2015				
	2014	2015	Changes from 2014 to 2015	
			Amount	Percentage
Assets:				
Current Assets	\$ 2,441,432	\$ 2,485,253	\$ 43,821	1.8%
Capital Assets	5,661,724	5,448,159	(213,565)	-3.8%
Total Assets	<u>8,103,156</u>	<u>7,933,412</u>	<u>(169,744)</u>	<u>-2.1%</u>
Liabilities:				
Current	<u>105,533</u>	<u>97,468</u>	<u>(8,065)</u>	<u>-7.6%</u>
Total Liabilities	105,533	97,468	(8,065)	-7.6%
Net Position:				
Invested in capital assets	5,661,724	5,448,159	(213,565)	-3.8%
Unrestricted	<u>2,335,899</u>	<u>2,387,785</u>	<u>51,886</u>	<u>2.2%</u>
Total Net Position	<u>\$ 7,997,623</u>	<u>\$ 7,835,944</u>	<u>\$ (161,679)</u>	<u>-2.0%</u>

The following is a brief explanation for the balance changes of the Condensed Statement of Net Position for the year ending June 30, 2015:

- The Total Net Position of the District decreased by \$161,679 mainly due to depreciation.
- Total Liabilities remained relatively unchanged, decreasing slightly by \$8,065.

Whispering Palms Community Services District
Management's Discussion and Analysis (Continued)

Year Ended June 30, 2015

A summary of the District's Statement of Activities in comparison to the prior year is presented below.

Condensed Statement of Activities				
Fiscal Years				
Ended June 30, 2014 and 2015				
	2014	2015	Changes from 2014 to 2015	
			Amount	Percentage
Program Revenues:				
Charges for Services	\$ 532,695	\$ 591,382	\$ 58,687	11.0%
Total Program Revenues	<u>532,695</u>	<u>591,382</u>	<u>58,687</u>	<u>11.0%</u>
General Revenues:				
Taxes	266,676	282,220	15,544	5.8%
Investment earnings	5,133	5,515	382	7.4%
Other revenues	78	27,453	27,375	35096.2%
Total General Revenues	<u>271,887</u>	<u>315,188</u>	<u>43,301</u>	<u>15.9%</u>
Total Revenues	<u>804,582</u>	<u>906,570</u>	<u>101,988</u>	<u>12.7%</u>
Expenses:				
General government	52,091	54,556	2,465	4.7%
Landscape maintenance	117,872	109,947	(7,925)	-6.7%
Sewer	893,398	903,746	10,348	1.2%
Total Expenses	<u>1,063,361</u>	<u>1,068,249</u>	<u>4,888</u>	<u>0.5%</u>
Changes in Net Position	(258,779)	(161,679)	97,100	37.5%
Beginning Net Position	8,256,402	7,997,623	(258,779)	3.1%
Ending Net Position \$	<u>7,997,623</u>	<u>7,835,944</u>	<u>(161,679)</u>	<u>-2.0%</u>

The following is a brief explanation for the balance changes of the Condensed Statement of Activities for the year ending June 30, 2015:

- There was an increase of \$58,687 in Charges for Services due to an increase in the annual sewer service charge. Connected parcels are charged \$400 per EDU, up from \$275, and parcels on standby in the sewer improvement district are charged \$100 per parcel. The additional revenue generated by the increase in the sewer service charge was offset by the fact that there were no capacity fees collected or revenue generated from the sale of reclaimed water to Rancho Paseana in fiscal year 2014/2015.
- Property taxes in both the sewer and landscaping district were up slightly as a result of increasing home values.
- Investment earnings remained nearly the same due to continued low interest rates.
- Landscape maintenance expenses decreased due to fewer planting projects this fiscal year, while unbudgeted sewer project costs increased, netting a small increase in total expenses.
- Other revenues increased by \$27,375 due to the reimbursement received from the State of California for mandated costs incurred under the Brown Act.

Year Ended June 30, 2015

CAPITAL ASSETS

The District's capital assets are comprised of sewer lines, pump stations, force mains, and the treatment plant. The District currently operates and maintains two sewer pump stations and approximately 39 miles of pipeline. Annual depreciation is calculated using the straight-line method over the estimated useful lives of the capital assets. Actual repairs, upgrades, or replacements to capital assets are based upon a review of an asset's physical conditions as well as its expected useful life.

	Balance at June 30, 2014	Additions	Deletions & Completed Construction	Balance at June 30, 2015

Deposits held for others	<u>711,441</u>
 TOTAL LIABILITIES	 <u><u>\$ 748,887</u></u>

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

a. Reporting Entity:

In November 1987 the citizens of Whispering Palms formed a community services district (District) pursuant to the California Government Code Sec. 61000. The District provides sewer and landscaping services to property owners in the community of Whispering Palms.

b. Government-Wide and Fund Financial Statements:

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues. Net position of the District are classified into three components – investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

- Investment in capital assets – this component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds. The District does not have any related debt at June 30, 2015.
- Restricted – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted – This component of net position consists of net position that does not meet the definition of “restricted” or “investment in capital assets”.

The accounting system of the District is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Separate financial statements are provided for the governmental fund, the proprietary fund and the fiduciary funds, even though the latter are excluded from the government-wide financial statements.

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

b. Government-Wide and Fund Financial Statements (Continued):

Fund balance reported on the fund statements consists of the following categories:

- Nonspendable fund balance typically includes inventories, prepaid items, and other items that by definition are not in spendable form or legally or contractually required to be maintained intact.
- The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Board of Directors. The Board of Directors has authority to establish, modify, or rescind a fund balance commitment.
- Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. The Board of Directors or designee has the authority to establish, modify, or rescind a fund balance assignment.
- Unassigned fund balance is the residual classification for the District's Governmental Fund and includes all spendable amounts not contained in the other classifications.

The District did not have any fund balance for the above categories except for the unassigned fund balance.

In the government-wide statements, the District considers restricted funds to be spent first then unrestricted amounts when expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available. In the governmental fund statements, when expenditures are incurred, the District uses the most restrictive funds first. The District would use the appropriate funds in the following order: committed, assigned, and lastly unassigned amounts.

c. Measurement focus, basis of accounting and financial statement presentation:

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied. In the government-wide Statement of Net Position and the Statement of Activities, activities are presented using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them. The accounting objectives of the economic measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of the timing of related cash flows. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Proprietary fund equity is classified as net position.

In the fund financial statements, the governmental fund is accounted for using the current financial resources measurement focus and the modified-accrual basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. The operating statement presents sources and uses of available spendable financial resources during a given period. The governmental fund uses fund balance as its measure of available spendable financial resources at the end of the period. Revenues are recognized when they become both measurable and available. Measurable means that the amounts can be estimated, or otherwise determined. Available means that the amounts were collected during the reporting period or soon enough thereafter (within 60 days) to be available to finance the expenditures accrued for the reporting period.

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

c. Measurement focus, basis of accounting and financial statement presentation (Continued):

Exchange transactions are recognized as revenues in the period in which they are earned (i.e., the related goods or services are provided). Locally imposed derived tax revenues are recognized as revenues in the period in which the underlying exchange transaction upon which they are based takes place. Imposed nonexchange transactions are recognized as revenues in the period for which they were imposed. If the period of use is not specified, they are recognized as revenues when an enforceable legal claim to the revenues arises or when they are received, whichever occurs first. Government-mandated and voluntary nonexchange transactions are recognized as revenues when all applicable eligibility requirements have been met.

Funds designated as major funds are determined by a mathematical calculation consistent with GASB Statement No. 34.

The District reports the following major governmental fund:

The **Governmental Fund** is the primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The District reports the following major proprietary fund:

The **Sewer Operations and Capital Fund** is used to account for the operation and maintenance of the District's sewer systems which is funded by user charges and other fees.

The District's fund structure also includes the following fund type:

The **Fiduciary Funds** includes trust and agency funds. Agency funds are used to account for assets held by the government as an agent for individuals, private organizations, other governments and/or other funds. Fiduciary statements, even though excluded from the government-wide financial statements, represent Agency Funds which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

In general, the effect of interfund activity has been eliminated from the government-wide financial statements. The exceptions to this rule are the charges between the sewer operations and capital fund and the other functions of the District. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenues of the District's proprietary fund are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, general and administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When the District incurs an expense for which restricted and unrestricted resources are available it is the District's policy to first apply restricted resources then unrestricted resources.

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

d. Cash and Cash Equivalents:

For purposes of the statement of cash flows, cash and cash equivalents have been defined as demand deposits and highly liquid investments with an original maturity of 90 days or less. Cash includes amounts in demand and time deposits. Investments are stated at fair value (quoted market price or best available estimate thereof, see Note 2).

e. Investments:

Investments are reported in the accompanying financial statements at fair value. Changes in fair value that occur during a fiscal year are recognized as income from property and investments reported for that fiscal year. Income from property and investments includes interest earnings, changes in fair value, any gains or losses realized upon liquidation, maturity, or sale of investments. There are no significant differences between fair value and cost at June 30, 2015.

f. Receivables and Payables:

Management estimates all receivables at June 30, 2015 to be collectible, as any receivables deemed uncollectible have been written off.

g. Claims and Judgments:

When it is probable that a claim liability has been incurred at year end, and the amount of the loss can be reasonably estimated, the District records the estimated loss, net of any insurance coverage. At June 30, 2015, in the opinion of the District's Counsel, the District had no material unreported claims which would require loss provision in the financial statements, including losses for claims which are Incurred But Not Reported (IBNR). Small dollar claims and judgments are recorded as expenditures when paid, if any.

h. Capital Assets:

Capital assets, which include land, structures and improvements, and equipment are depreciated and are reported in the applicable governmental or business-type activity columns in the government-wide financial statements.

Capital assets have an estimated useful life greater than one year and have a cost greater than \$5,000. Capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at historical cost at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Construction in progress costs are capitalized and transferred to their respective fixed asset category upon completion of the project.

Depreciation is charged to operations using the straight-line method based on the estimated useful life of an asset. Land and construction-in-progress are not depreciated.

Structures and Improvements	40-50 Years
Equipment	5-40 Years

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

i. Property Taxes:

Real property taxes are levied on October 15 against owners of record on January 1. The taxes are due in two equal installments, on November 1 and February 1, and become delinquent after December 10 and April 10 respectively. Tax liens attach annually as of 12:01a.m. on the first day in January in the fiscal year for which the taxes have been levied. Property tax revenue is recognized in the fiscal year for which the taxes have been levied, provided it is within 60 days of the end of the year.

j. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

k. New Accounting Pronouncements:

Implemented:

- GASB Statements No. 68 / 71 - In fiscal year 2014-2015, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 68, "*Accounting and Financial Reporting for Pensions, an Amendment of GASB Statement No. 27*" and GASB Statement No. 71 - "*Pension Transition for Contributions Made Subsequent to the Measurement Date, an Amendment of GASB Statement No. 68*". These Statements establish standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit pension plans, these Statements identify the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Accounting changes adopted to conform to the provisions of this statement should be applied retroactively. The implementation of this standard did not impact the District.
- GASB 69 - "*Government Combinations and Disposals of Government Operations*" was required to be implemented in the current fiscal year and did not impact the District.

Pending Accounting Standards:

GASB has issued the following statements which may impact the District's financial reporting requirements in the future:

- GASB 72 - "*Fair Value Measurement and Application*", effective for periods beginning after June 15, 2015.
- GASB 73 - "*Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statement 67 and 68*", effective for periods beginning after June 15, 2015 - except for those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement 68, which are effective for periods beginning after June 15, 2016.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

k. New Accounting Pronouncements (Continued):

Pending Accounting Standards (Continued):

- GASB 74 - “Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans”, effective for periods beginning after June 15, 2016.
- GASB 75 - “Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions”, effective for periods beginning after June 15, 2017.
- GASB 76 - “The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments”, effective for periods beginning after June 15, 2015.

l. Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District does not have any items that qualify for reporting in this category as of June 30, 2015.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The District does not have any items that qualify for reporting in this category as of June 30, 2015.

2. CASH AND INVESTMENTS:

Cash and investments at June 30, 2015, are reported in the accompanying basic financial statements as follows:

STATEMENT OF NET POSITION:

Cash and cash equivalents	\$ 2,430,393
---------------------------	--------------

STATEMENT OF FIDUCIARY NET POSITION:

Cash and cash equivalents	196,281
Cash and investments with fiscal agent	<u>552,606</u>

Total cash and investments	<u>\$ 3,179,280</u>
----------------------------	---------------------

Cash and cash equivalents as of June 30, 2015 consist of the following:

Deposits with financial institutions	\$ 423,962
Investments	<u>2,755,318</u>

Total cash and investments	<u>\$ 3,179,280</u>
----------------------------	---------------------

2. CASH AND INVESTMENTS (CONTINUED):

Investments Authorized by the California Government Code and the District’s Investment Policy:

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District’s investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District’s investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of bond proceeds held by bond trustees that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District’s investment policy.

Authorized Investment Type	Maximum Maturity	Maximum Amount or Percentage Allowed	Maximum Investment in One Issuer
Local Agency Investment Fund (LAIF)	N/A	None	None

N/A = Not Applicable

Disclosures Relating to Interest Rate Risk:

Interest rate risk is the risk that changes in market interest rates that will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

Information about the sensitivity of the fair values of the District’s investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the District’s investments by maturity:

Investment Type	Total as of June 30, 2015	Remaining Maturity (in Months)		
		12 Months or Less	13 - 24 Months	25 - 60 Months
Local Agency Investment Fund	\$ 2,202,712	\$ 2,202,712	\$ -	\$ -
Held by Fiscal Agent:				
Money Market	552,606	552,606	-	-
Total	<u>\$ 2,755,318</u>	<u>\$ 2,755,318</u>	<u>\$ -</u>	<u>\$ -</u>

The Local Agency Investment Fund consists of \$696,671 in the Governmental Activities and \$1,506,041 in the Business-type Activities at June 30, 2015.

2. CASH AND INVESTMENTS (CONTINUED):

Disclosures Relating to Credit Risk:

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the District's investment policy, or debt agreements, and the Standard and Poor's actual rating as of year end for each investment type:

Investment Type	Total as of June 30, 2015	Minimum Legal Rating	Not Required to be Rated	AAA	Not Rated
Local Agency Investment Fund	\$ 2,202,712	N/A	\$ -	\$ -	\$ 2,202,712
Held by Fiscal Agent:					
Money Market	552,606	N/A	-	552,606	-
Total	<u>\$ 2,755,318</u>		<u>\$ -</u>	<u>\$ 552,606</u>	<u>\$ 2,202,712</u>

N/A = Not Applicable

Concentration of Credit Risk:

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. At June 30, 2015 there were no investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of the District's investments.

Custodial Credit Risk:

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. As of June 30, 2015, \$184,460 of the District's deposits in excess of federal depository insurance were either fully insured or collateralized.

2. CASH AND INVESTMENTS (CONTINUED):

California Local Agency Investment Fund (LAIF):

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized basis.

3. CAPITAL ASSETS:

Capital asset activity for the year ended June 30, 2015 was as follows:

	Balance at June 30, 2014	Additions	Deletions & Completed Construction	Balance at June 30, 2015
Capital Assets, not being depreciated:				
Land	\$ 184,510	\$ -	\$ -	\$ 184,510
Total Capital Assets, not being depreciated	<u>184,510</u>	<u>-</u>	<u>-</u>	<u>184,510</u>
Capital Assets, being depreciated:				
Structures and improvements	8,821,953	-	-	8,821,953
Equipment	1,928,641	39,280	-	1,967,921
Subtotal	<u>10,750,594</u>	<u>39,280</u>	<u>-</u>	<u>10,789,874</u>
Less Accumulated Depreciation:	<u>(5,273,380)</u>	<u>(252,845)</u>	<u>-</u>	<u>(5,526,225)</u>
Net Capital Assets, being depreciated	<u>5,477,214</u>	<u>(213,565)</u>	<u>-</u>	<u>5,263,649</u>
Net Capital Assets	<u>\$ 5,661,724</u>	<u>\$ (213,565)</u>	<u>\$ -</u>	<u>\$ 5,448,159</u>

Depreciation expense was charged to functions/programs of the District as follows:

Business-type Activities:	
Sewer	<u>\$ 252,845</u>
Total Depreciation Expense	<u>\$ 252,845</u>

4. INTERNAL BALANCE:

a. Current Internal Balance:

Current internal balances arise in the normal course of business and are expected to be repaid shortly after the end of the fiscal year. The following is a summary of current internal balances as of June 30, 2015. The internal balances listed below represent the advancement of cash to cover operating expenses.

<u>RECEIVABLE FUND</u>	<u>AMOUNT</u>	<u>PAYABLE FUND</u>	<u>AMOUNT</u>
Proprietary Fund	\$ 1,675	Governmental Fund	\$ 1,675

5. SPECIAL ASSESSMENT BONDS WITHOUT GOVERNMENT COMMITMENT:

- a. In October 1996 the District issued Limited Obligation Improvement Bonds in the amount of \$4,086,954 to finance the construction of certain sewer improvements to the District’s sewage treatment plant. The bonds were issued with an interest rate ranging from 5% to 5.7% and will reach final maturity in September 2016. Interest payments are due semi-annually and principal payments are required on an annual basis. The bonds had an outstanding principal balance of \$610,000 at June 30, 2015.

For the bond issuance noted above, the District is not obligated in any manner for the payment of debt service in the event of default by the property owners but is only acting as agent for the property owners in collecting the assessments, forwarding the collections to bondholders, and initiating foreclosure proceedings, if appropriate. Accordingly, no liability for these bonds has been recorded in the financial statements.

6. COMMERCIAL INSURANCE POLICY:

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District purchases commercial insurance for its exposure to risk. The District is insured against claims and judgments for general, automobile liability, and public officials & management liability (up to \$1,000,000 per occurrence). Property insurance was purchased with coverage up to \$5,874,200 subject to a \$1,000 deductible. The District has also purchased excess liability insurance (up to \$10,000,000 per occurrence). Settled claims have not exceeded any of the District’s coverage amounts in any of the last three fiscal years and there were no significant reductions in the District’s insurance coverage during the year ended June 30, 2015. The District’s insurance coverage also includes inland marine, blanket tools & equipment, scheduled equipment, and excess liability. There is no deductible on the general liability insurance. There are varying deductibles between \$500 and \$1,000 for the automobile and miscellaneous coverage.

7. CONTINGENCIES:

Litigation:

The District’s management and legal counsel estimate that any legal claims against the District, not covered by insurance, resulting from such litigation would not have a material effect on the basic financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

BUDGETARY COMPARISON SCHEDULE
GOVERNMENTAL FUND
For the year ended June 30, 2015

	Budgeted Amounts		Actual	Variance with Final Budget
	Original	Final		
FUND BALANCE, JULY 1	\$ 697,118	\$ 697,118	\$ 697,118	\$ -
RESOURCES (INFLOWS):				
Taxes and special assessments	216,000	216,000	240,324	24,324
Revenues from use of money and property	2,000	2,000	1,661	(339)
Amount Available For Appropriations	218,000	218,000	241,985	23,985
CHARGES TO APPROPRIATIONS (OUTFLOWS):				
Landscape maintenance	408,000	408,000	109,947	298,053
General government	53,280	53,280	54,556	(1,276)
Total Charges to Appropriations	461,280	461,280	164,503	296,777
EXCESS OF RESOURCES OVER (UNDER) CHARGES TO APPROPRIATIONS	(243,280)	(243,280)	77,482	320,762
FUND BALANCE, JUNE 30	\$ 453,838	\$ 453,838	\$ 774,600	\$ 320,762

1. BUDGETS AND BUDGETARY ACCOUNTING:

The District follows these procedures in establishing the budgetary data reflected in the Budgetary Comparison Schedule:

- a. The annual budget adopted by the Board of Directors provides for the general operation of the District. It includes proposed expenditures and the means of financing them.
- b. The Board of Directors approves total budgeted appropriations and any amendments to appropriations throughout the year. Actual expenditures may exceed budgeted appropriations at the fund level. However, the District's general manager is authorized to transfer budgeted amounts between individual departments. Budget figures used in the financial statements are the final adjusted amounts, including any amendments to the budget during the year. In the current year, actual expenditures exceeded budgeted appropriations due to increased landscape maintenance costs due to additional planting projects.
- c. Formal budgetary integration is employed as a management control device. Appropriations which are encumbered at year end lapse, and then are added to the following year's budgeted appropriations. However, encumbrances at year end are reported as reservations of fund balance. There were no encumbrances at June 30, 2015.
- d. Budget information is adopted for the governmental fund and presented as required supplemental information. The presentation represents original appropriations adjusted for supplemental appropriations, if any, made during the year. The budget for the governmental fund is adopted on a basis substantially consistent with generally accepted accounting principles (GAAP).
